

GALTEK® CHECK VALVES

*All Teflon® material wetted surfaces and
an o-ring-free design provide corrosion resistance and
reduce contamination in high-purity chemical applications*

Reduce Contamination

Entegris, the materials integrity management company, leads the industry with the broadest product offering, advanced manufacturing capabilities, worldwide infrastructure and unmatched technical expertise. Putting to use more than 36 years of experience, we have designed yet another innovative solution for providing reliable, clean delivery of sophisticated chemicals. Corrosion-resistant Galtek® check valves reduce contamination potential in your high-purity chemical applications such as bulk distribution, wet processing and chemical dispensing.

O-ring-Free Design

By eliminating the o-ring from the Galtek® check valve, Entegris has removed a potential contamination source. The result is a simple, clean, compact valve with a high flow rate and increased reliability.

Entegris' o-ring-free design removes a potential contamination source and increases product reliability.

All-Fluoropolymer Construction

Galtek® check valves contain molded Teflon® PFA and virgin machined PTFE materials – allowing for a cleaner overall process. Because of the fluoropolymer construction, these valves are able to withstand applications involving corrosive materials or high-purity environments. The corrosion-resistant properties of Teflon® PFA and PTFE also give you a longer product life with less maintenance, resulting in a considerable cost advantage.

Ordering Information

Entegris offers a full range of 1/4", 1/2", 3/4" and 1" orifice check valves with a variety of industry standard end connections including Flaretek® and PureBond®. These compact valves have flows ranging from 0.75 to 16 C_v. Additional end connections can be made available. Contact Entegris with your requirements.

For More Information

To learn more about Galtek® o-ring-free check valves or any of our valve products, contact your local Entegris distributor or Entegris, Inc.

To review our complete line of fluid handling product solutions see Entegris' *Fluid Handling Products* catalog, visit Entegris' Web site at www.entegrisfluidhandling.com or contact Entegris Customer Service for your free *Fluid Handling Products* catalog on CD-ROM.
