

200 mm H93 Single Wafer Shipper

*Safely secures a single, 200 mm wafer
in a convenient, easy-to-use package*

Our portfolio of single wafer shippers addresses automation, contamination, and productivity concerns for 200 mm fabs. The H93 Series single wafer shipper securely retains a single wafer in shipping and storage applications. The shipper holds one wafer facedown in the conical pocket contacting only the wafer's edges. For applications requiring additional static protection, we offer the single wafer shipper in STAT-PRO® 500 black conductive polycarbonate material. The convenient, easy-to-use package is designed to SEMI standard wafers.

Designed to securely retain the wafer and minimize particle generation.

APPLICATIONS

- 200 mm single wafer shipping and storage

FEATURES & BENEFITS

Single wafer shipper	Secures one 200 mm wafer facedown for safe shipping
Clear polycarbonate material	Allows visual inspection without opening, maintaining wafer integrity
Replaceable cushions	Securely retain the wafer, minimizing particle generation
Single latch	Provides secure closure and easy opening
Pin-in-socket hinges	Allow the shipper to be opened horizontally, providing stability for wafer handling
Stackable	Allows efficient use of storage space
Tweezers slots	Conveniently located, facilitating easy wafer handling
