

# 450 MM SINGLE WAFER SHIPPER AND SECONDARY PACKAGING

Protects 450 mm wafers from contamination and breakage

### Overview

In the process of scaling up your 450 mm program, you need reliable wafer storage and shipment to ensure that your development remains on schedule. You cannot waste valuable time replacing expensive wafers that have been contaminated or damaged. Entegris' 450 mm single wafer shipper can alleviate this issue by providing a safe environment for you to ship and store your test wafers. Constructed of strong, engineering-grade polymers, this shipper maintains a clean environment, while its edge-only wafer contact internally protects against device damage and surface area contamination. Entegris has been working with you to protect your wafers during shipment and storage for over 40 years and will continue to support you in the transition to 450 mm.

Along with protection from the shipper, we've developed secondary packaging to ensure your wafers are safe and clean upon arrival. Our 1-capacity and 5-capacity packages successfully pass ISTA-2A drop and vibration testing, offering you a complete 450 mm shipping solution.

# Features and Benefits

Feature	Benefit	
Edge-only wafer contact	Protects against damage and surface area contamination	
Hinged design with detent feature	Holds cover in upright position, minimizing work area footprint	
Vacuum wand access area	Allows wafer pickup with vacuum wand	
Elastomeric gasket and breather filter	Maximum particle barrier	
Accommodates multiple wafer thicknesses	For nonstandard applications	
Stackable	Efficient storage	
RFID capable	Process and inventory management	

# Specifications

# Single Wafer Shipper

Materials of construction:	Polycarbonate	
Wafer size:	450 mm (SEMI® M76 compatible)	
Wafer thickness:	Variable	
Dimensions:	Length	544.8 mm (21.45")
	Width	509.0 mm (20.04")
	Height (closed)	59.7 mm (2.35")
	Height (open)	554.5 mm (21.83")
Weight:	Empty	2.47 kg (5.45 lb)
	With wafer	2.81 kg (6.19 lb)

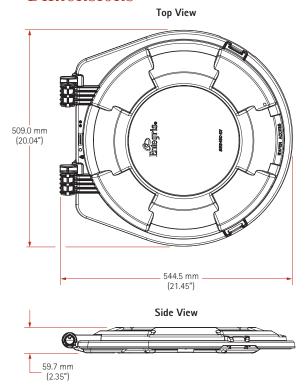

### Single-capacity Secondary Packaging

Materials of construction:	Corrugated cardboard, polyethylene and polyurethane foam	
Dimensions:	Length	635 mm (25.0")
	Width	635 mm (25.0")
	Height	228 mm (8.98")
Weight:	Empty	2.0 kg (4.4 lb)
	With single wafer shipper	4.5 kg (9.9 lb)
	With shipper and wafer	4.8 kg (10.6 lb)

#### **Five-capacity Secondary Packaging**

Materials of construction:	Corrugated cardboard, polyethylene and polyurethane foam	
Dimensions:	Length	673 mm (26.5")
	Width	609 mm (24.0")
	Height	600 mm (23.6")
Weight:	Empty	2.7 kg (5.95 lb)
	With single wafer shippers	15.2 kg (33.5 lb)
	With shippers and wafers	16.7 kg (36.8 lb)

# **Dimensions**

# **Ordering Information**

Part Number	Description
SWS450-101-ABNNNN	450 mm single wafer shipper with PCR-80 material
SWS450-101-ABNCNN	450 mm single wafer shipper with PCR-80 material and Clarilite® wafer
01-1016902	1-capacity secondary packaging
01-1016903	5-capacity secondary packaging
