

# Additional Silanes

*Function as cross-linkers, coupling agents, surface modifiers, adhesion promoters, and moisture scavengers*

As a leader in specialty chemicals and advanced materials for the microelectronics, life sciences, and other high-tech industries, we can accelerate your new product development efforts and manufacturing supply chain by providing critical materials at the appropriate scale, and within the communi-cated delivery schedule. Our portfolio of silanes is tailored to your manufacturing requirements and specifications to meet your high-quality customized needs.

Our silanes function as cross-linkers, coupling agents, surface modifiers, adhesion promoters, and moisture scavengers. Stability, durability, hardness, and scratch resistance are among many beneficial properties that make our silanes ideal for a variety of industrial applications.

Our experienced R&D teams provide deep chemistry expertise in an innovative culture to deliver custom synthesis solutions that meet your proprietary development needs. With our extensive manufacturing capabilities, we can handle a range of projects from grams to metric ton quantities, through scale-up and full commercialization. We also provide chemical process development, piloting, and custom chemical manufacturing.

## APPLICATIONS

- Organic synthesis in chemical manufacturing processes
- Surface modifiers in coatings and adhesives
- Chromatography and analytical R&D

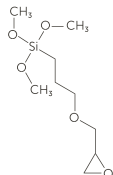

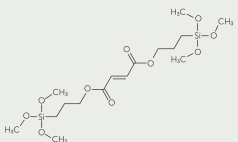

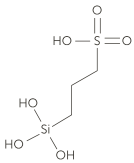

## FEATURES & BENEFITS

<b>Variety of functional and reactive properties</b>	Provide a variety of properties such as enhanced bond strength to the finished product
<b>Advanced scientific expertise</b>	Technical transfers, R&D, scale-up optimization, and continuous improvement are conducted by PhD chemist-led teams that are supported by world-class quality and analytical resources
<b>ISO 9001 certifications</b>	The Entegris quality management system (QMS) certified by the ISO 9001 standard ensures provision of consistent quality products meeting customer and regulatory requirements

## SPECIFICATIONS

Our products are made to strict specifications and our experienced R&D teams can partner with you to meet your proprietary development needs. With our manufacturing capabilities and resources, we can deliver on communicated timing requirements as well as high-quality customized solutions. [Contact us](#) with your specifications.

## Product Portfolio

Catalog #	CAS #	Product	Structure
S1170	2530-83-8	3-Glycidoxypropyltrimethoxysilane, distilled	
S2026	3371-62-8	Bis(3-trimethoxysilylpropyl) fumarate	
S2327	70942-24-4	3-(Trihydroxysilyl)propane-1-sulfonic acid, 35% in water	

### FOR MORE INFORMATION

Please call your Regional Customer Service Center today to learn what Entegris can do for you. Visit [entegris.com](http://entegris.com) and select the [Contact Us](#) link to find the customer service center nearest you.

### TERMS AND CONDITIONS OF SALE

All purchases are subject to Entegris' Terms and Conditions of Sale. To view and print this information, visit [entegris.com](http://entegris.com) and select the [Terms & Conditions](#) link in the footer.
