

Bioprocess Powder Bags

Robust, anti-static single-use powder containment and transfer solution

Our bioprocess powderbags are an ergonomic, robust, closed solution for convenient filling, handling, storing, and transferring of powders used in media, buffer solutions, and active pharmaceutical ingredients (APIs).

Constructed from anti-static, monolayer, polyethylene-based film, these powder containment bags enable full product recovery without requiring a liquid rinse.

Our powder bags can be used in conjunction with a standard mating sanitary flange system or as a stand-alone unit. Sizes include 5 L, 10 L, 15 L, 25 L, and 50 L capacities, all with 4" sanitary flange dispense ports. An optional 4" x 3" reducer accessory is also available.

APPLICATIONS

- Bioprocessing
- Powdered cell culture media and buffer salts, and excipients
- Carbon nanofibers
- Tablets/capsules container
- Aseptic processing

Single-use powder bags are incredibly easy to integrate into any process using equipment with a sanitary connection.

FEATURES & BENEFITS

Single-use system	<p>Reduces cross contamination, maintaining product integrity</p> <p>Minimizes risks associated with handling powders and eliminates the need for cleaning and validation, saving time and expense compared to stainless steel systems</p>
Anti-static, monolayer, polyethylene-based film	<p>Enables maximum product recovery, 99.99% product discharge, reducing yield loss</p> <p>Single layer film ensures material compatibility in a variety of applications, enabling process versatility</p> <p>Eliminates the need for a liquid rinse, eliminating dangerous exposure risks</p> <p>Transparent material provides easy product inspection/identification</p>
Ergonomic, reinforced integrated handle	<p>Provides easy lifting</p> <p>Hoist compatibility allows easy handling for heavier applications, improving safety</p> <p>Optional flange handle for sanitary port provides easier individual or two-person handling for middle weight bags that do not require a hoist</p>
4" sanitary flange connection	<p>Larger opening ensures contained operations of large volume powder transfers, maintaining product integrity and assuring personnel safety</p> <p>Compatible with existing standard sanitary flange connection for easy integration to existing processes</p>

SPECIFICATIONS

Sizes	5 L, 10 L, 15 L, 25 L, 50 L
Materials	Flex 125 – Anti-static, monolayer, polyethylene-based film
Connection	4" sanitary flange dispense port
Handling	<p>Integrated reinforced handle, hoist compatible</p> <p>Optional flange handle available for sanitary flange port</p>
Traceability	Units are individually labeled
Quality	<p>Manufactured in an ISO Class 7 cleanroom</p> <p>100% unit visual inspection</p> <p>Batch pressure testing per ISO 10648-2</p> <p>Validation guide available</p> <p>BSE/TSE free</p> <p>cGMP compliant</p>
Sterilization	Provided gamma irradiated as standard

DIMENSIONS

5 L

10 L

15 L

25 L

50 L

Dimension Table

Volume	Part number (irradiated)	Part number (non-irradiated)	A	B
5 Liter	FSD04948.01	FSD04948.01-U	500 mm (19.7")	595 mm (23.4")
10 Liter	FSD04949.01	FSD04949.01-U	500 mm (19.7")	700 mm (27.6")
15 Liter	FSD04950.01	FSD04950.01-U	500 mm (19.7")	775 mm (30.5")
25 Liter	FSD04951.01	FSD04951.01-U	500 mm (19.7")	965 mm (38.0")
50 Liter	FSD04952.01	FSD04952.01-U	600 mm (23.6")	1085 mm (42.7")

ORDERING INFORMATION

Part number (irradiated)	Part number (non-irradiated)	Volume	Minimum order quantity
FSD04948.01	FSD04948.01-U	5 L	5
FSD04949.01	FSD04949.01-U	10 L	5
FSD04950.01	FSD04950.01-U	15 L	5
FSD04951.01	FSD04951.01-U	25 L	5
FSD04952.01	FSD04952.01-U	50 L	5

Custom bags are available upon request.

ACCESSORIES

Clip

Concentric Reducer (4" to 3")

4" cap with Knob Handle

Part number	Description
FXD05157.01	4" gasket, 4" cap, 4" tri-clamp
FXD05153.01	Concentric reducer (4" to 3")
FXD05154.01	Powder bag clips
FXD05155.01	4" cap with built-in knob/handle for very heavy filled powder bags
