

H44 Series Clips

Ideal for bare die, chip scale, wafer scale, and other device package handling

Entegris has developed a robust and versatile tray product offering with a catalog of over 16,000 existing designs. These clips are designed for use with H44 Series 4" square bare die trays to ensure secure contact between trays and cover.

The device trays are designed and manufactured to interface with manual or automated tool handling, and provide reliable operation and superior device protection while minimizing shipping and storage costs.

FEATURES & BENEFITS

For use with H44 Series 4" square bare die trays.

Available in STAT-PRO® or natural polypropylene material	Provides superior mechanical properties and low contamination, enabling advanced performance and reliability
Interlocking clip pairs press on the center of the tray	Provides secure contact between the tray and cover
