

Reticle Pod Purge Cabinets

*Enable reticle pod storage and gas
purge*

Reticle purge cabinets join our comprehensive portfolio of reticle handling and storage solutions that help maintain a contamination-free environment. Cabinet designs support all 150 mm reticle SMIF pods (RSP150), 200 mm reticle SMIF pods (RSP200), and extreme ultraviolet light (EUV) reticle pods.

Cabinets are available with one or two purge gases and up to 84 purge locations, enabling pods to be individually purged to reduce particles and moisture within the pod. Each cabinet includes a pod monitoring system that enables traceability and sufficient purge time.
