

# Innovation is no accident™

## EXPERIENCE MATTERS

Entegris is the creator of revolutionary subatmospheric gas delivery solutions, including Safe Delivery Source® (SDS®) and Vacuum Actuated Cylinder® (VAC®) technologies

### SDS TECHNOLOGY

**1st**

#### CHOICE IN SAFETY

SDS is the benchmark in the industry

Delivers and stores gas subatmospherically

Stable and inert adsorbent technology

### EXPERIENCE MATTERS

**25** years of R&D experience

**>300** cumulative years of global implant expertise solving the toughest gas delivery and tool productivity challenges

### GAS AND PACKAGING TECHNOLOGIES

#### BROAD RANGE OF GASES

Including AsH<sub>3</sub>, PH<sub>3</sub>, BF<sub>3</sub>, GeF<sub>4</sub>, CO, SiF<sub>4</sub>, and more

#### BEST-IN-CLASS VAC

Boron, Germanium, Silicon, and Carbon mixtures for dramatically improved source life and beam performance
