

Global Environmental, Health and Safety (EHS) Policy

In support of our company values, Entegris is committed to conducting business in a way that provides a safe and healthy workplace for our employees, visitors, contractors, and communities and protects the environment.

Health and Safety

We strive to identify, eliminate, and control risk in the workplace in our effort to prevent injury and illness.

Pollution Prevention

We are committed to be a responsible member of the global community and support a sustainable future. We will prevent pollution through risk management, source reduction, energy conservation, and waste reduction.

Continual Improvement

We actively monitor and carefully analyze the impact of our operations and continually drive improvements throughout the Entegris organization.

Compliance

We implement performance-based programs that are aligned with industry best practices, have measurable objectives, and meet or exceed our compliance obligations.

Product Stewardship

We evaluate our products and services to ensure they meet or exceed the environmental, health and safety expectations of our global market.

Communication

Entegris will ensure employee consultation and participation in health and safety issues. We support communication with interested parties and maintain an open dialogue with our employees, contractors, customers, and the public regarding our operations.

Senior management is committed to this policy and monitors performance to ensure its implementation.

David Reeder
Chief Executive Officer and President
