

Entegris Celebrates the Opening of the China Technology Center

Expands its Technical Services in China to Better Serve High-Tech Customers in the Asia Region

BILLERICA, Mass., November 13, 2019 - [Entegris Inc.](#) ([Nasdaq: ENTG](#)), a leader in specialty chemicals and advanced materials solutions, today celebrated the opening of its China Technology Center (CTC). Located in China's Silicon Valley, Zhangjiang, Shanghai, Entegris' CTC further adds to the company's technical capabilities in China. The four focus areas include: a Microcontamination Control Application Lab, an Advanced Material Handling Application Lab, a Surface Preparation and Integration Application Lab, and an Analytical and Metrology Lab.

With more than 25 years of operations in China, Entegris has been steadily expanding its footprint across the region, with offices in Shanghai, Beijing, Xi'an, Xiamen, and Wuhan and a sales and service presence in many other locations to serve customers from all parts of the country.

"We have placed a significant investment in our China Technology Center to serve our local customers across multiple industries, including semiconductor, FPD, OLED, LCD, and Ink," said Todd Edlund, executive vice president and chief operating officer at Entegris. "We are also looking to expand our capabilities to additional areas, for example, life science, pharmaceutical, and medical."

The four labs within the China Technology Center are dedicated to solving a diverse set of customer problems across the semiconductor manufacturing ecosystem and bring a broad range of analytical and technical capabilities to customers in the region.
