JaeEon Park, Ph.D.

Technology Director, Advanced Deposition Materials

Dr. Park joined Entegris in 2014 as a director of strategic account technology management. His current responsibility is to lead customer-focused technology development for deposition materials at our Korea Technology Center (KTC).

Dr. Park came to Entegris from Samsung Electronics, where he worked for many years in several capacities. In 2001, he was part of Samsung's process development team. In 2005, he joined the process integration team and in 2010 he was the MEOL integration team leader for 32 - 14nm processes for logic devices.

Dr. Park received a Ph.D. in Chemistry from the Korea Advanced Institute of Science and Technology (KAIST). He has the distinction of being on the development team that launched the gate-first technology for 32nm HKMG logic device manufacturing (2010).
