## Youngha Yoon

*Global Product Technologist, Specialty  
Chemicals & Engineered Materials*

Mr. Yoon joined Entegris in April of 2014 as part of the ATMI acquisition. He has 20 years of experience in the semiconductor industry and currently provides technical expertise in support of our specialty gas and specialty materials businesses and technologies.

At ATMI, Mr Yoon was responsible for technical support for customers for the company's specialty gas business. Before joining ATMI, Mr. Yoon was a chief researcher for the development of advanced MEMS devices at National IT, an agency working to promote the advancement of the industry. Prior to that, he was an ion implantation process leader at Samsung Electronics focused on enhancing the electrical properties of transistors.

Mr. Yoon received a master's degree in materials science and engineering from Sungkyunkwan University in Seoul, South Korea in 1995. In 2002, he received the President's Award for Semiconductor Quality Innovation in a national competition while employed at Samsung.
