

COMPANY OVERVIEW

Entegris, Inc. (NASDAQ: ENTG) is a leading provider of yield-enhancing materials and solutions for advanced manufacturing processes in the semiconductor and other high-technology industries.

These solutions include:

- Filtration products that purify process gases, fluids and the ambient fab environment
- Liquid systems and components that dispense, control, analyze or transport process fluids
- Gas delivery systems that safely store and deliver toxic gases
- Specialty chemistries for deposition and cleaning at advanced nodes
- Processes to recover valuable metals from e-waste
- Specialty coatings that provide high-purity surfaces for wear-resistance, corrosion protection and smoothness
- Premium graphite and silicon carbide for high-performance applications
- Shippers and trays for protecting and transporting disk drive components
- Wafer carriers and shippers that protect semiconductor wafers from contamination and breakage

LEADING THROUGH INNOVATION

For 50 years, Entegris' innovative materials-science solutions have enabled the cost-effective production of increasingly complex generations of semiconductors and electronics.

Entegris core competencies include:

Materials science: The study of the characteristics and uses of materials such as polymers, metals, semiconductors, graphite, silicon carbide and ceramics commonly used in the world's leading technology products.

Separation science: The use of techniques to facilitate the separation, purification and analysis of complex mixtures of organic and inorganic compounds. Customers rely upon these separation techniques to precisely control micro and molecular contamination.

These competencies, optimized through the company's worldwide manufacturing and technical support capabilities, enable Entegris to provide our customers with the highest level of contamination control, improving their yields and decreasing costs.

INDUSTRY PARTNERSHIPS

Entegris partners with industry leaders in the semiconductor and other high-tech industries to ensure that its customers can take full advantage of the latest advances in filtration, critical materials handling and advanced process materials. Entegris also has unique research and development relationships with manufacturers around the world.

In addition to its strategic partnerships and its membership in key industry groups, such as the International Technology Roadmap for Semiconductors (ITRS) and SEMI, the company is actively engaged in industry technology consortia including imec, G450C and Sematech.

Quick Facts

- Headquartered in Billerica, MA, with a global infrastructure of manufacturing, service centers and research facilities in the United States, Malaysia, Singapore, Taiwan, China, South Korea, Japan, Israel, Germany and France
- Fiscal 2016 sales of \$1.2 billion
- Holds 639 U.S. patents and 1,364 patents in other countries
- Approximately 3,500 employees worldwide
- Traded on NASDAQ under ENTG

Milestones

- 1966 – Founded as Fluoroware, Inc.
- 2000 – Begins trading under the ENTG symbol on NASDAQ
- 2005 – Merges with Mykrolis Corporation, a leading provider of liquid filtration and gas purification technologies
- 2006 – Expands manufacturing facility in Kulim, Malaysia
- 2007 – Acquires Surmet Corporation's high-purity semiconductor coatings business
- 2008 – Acquires Poco Graphite, an industry leader in high-performance graphite and silicon carbide
- 2009 – Acquires PureLine Co., a fluid handling component manufacturer, in Kangwon-do, Korea
- 2011 – Opens manufacturing facility in Hsinchu, Taiwan
- 2012 – Opens the Advanced Technology Center, manufacturing for 450 mm and EUV, in Colorado Springs, CO
Acquires Entegris Precision Technology, an HDPE drum blowmolding facility in Yangmei, Taiwan
- 2013 – Acquires Jetalon Solutions, maker of precision chemical sensors and analyzers
- 2014 – Acquires ATMI, Inc., a leading provider of advanced materials
Opens i2M Center, R&D and manufacturing for filtration membranes and specialty coatings, in Bedford, MA
- 2016 – Celebrates 50 years in business

Executive Management

- Bertrand Loy, President and CEO
- Gregory B. Graves, Executive Vice President and CFO
- Paul L. H. Olson, Chairman of the Board
