# Ben Lee

## Vice President, Global Sales - Asia Pacific

Mr. Lee joined Entegris in 2005. He is currently the Vice President of Global Sales for the Asia Pacific region and recently relocated from Taiwan to China.

Since 2015, Mr. Lee has been responsible for managing all sales & support activities for Entegris in the Asia Pacific region. This includes Taiwan, Japan, Korea, China, Malaysia and Singapore regional sales offices with over 160 sales professionals and engineers that deliver microcontamination control and advanced material solutions serving the semiconductor, flat panel display and other advanced technology industries.

Prior to his current role, Mr. Lee served as Entegris Vice President of the Liquid Microcontamination Control business unit from 2008, along with various executive positions at the company's headquarters in Billerica, Massachusetts, USA.

From 1991 to 2000 Mr. Lee worked for Millipore in the microelectronics division, which later became Mykrolis. While there, he held various positions in R&D, engineering, product marketing, sales and applications development. Over the years, Mr. Lee has also taken several overseas assignments, including work based in France, Hong Kong, Korea and China.

Mr. Lee graduated from University of Massachusetts with a Chemical Engineering degree and from the Harvard Business School's General Manager Program.
