## Sun Jun

### China Regional Director

Mr. Sun has held the regional director title since November of 2010. He is responsible for managing Entegris operations in China, including the integration of ATMI's China assets after its acquisition by Entegris in 2014.

Mr. Sun joined Entegris in May of 2001 and has held a variety of positions from regional product support roles to account management and sales management. During this time, he helped grow wafer carrier product sales significantly in China. Prior to joining Entegris, Mr. Jun served as Strategic Account Manager for Metron Technology in their semiconductor marketing organization.

Mr. Sun received a bachelor's degree in electronic and mechanical design and manufacturing from Shanghai University in 1990, and received a master's degree in metal material analysis from Chiou University in Japan in 1994.
