# John B. Lynch, Ph.D.

*Vice President, Life Sciences*

Dr. Lynch has a passion for leveraging science and technology to improve health and wellbeing. He has more than 30 years of scientific, technical, and business leadership experience focused on innovation and growth in the life sciences and other markets. He has served as vice president of life sciences at Entegris since 2019, after joining the company in 2017 with responsibility for new market business development. Between 2014-2016, he was vice president of strategic platforms at PerkinElmer where he led the analytical instrumentation business. He led innovation strategy at EMD Millipore, a division of Merck KGaA, from 2010-2014 after joining Millipore in an R&D leadership role in 1998.

Dr. Lynch earned a Bachelor of Science degree in biochemistry from Canisius College and a Ph.D. in chemistry from the University of Minnesota – Twin Cities. He also holds a Certificate in Strategic Decision Making from Stanford University.
