Entegris

COMPANY OVERVIEW

Entegris, Inc. (NASDAQ: ENTG) is a leading supplier of advanced materials and process solutions for the semiconductor, advanced manufacturing, and other high-tech industries.

These solutions include:

- Filters that purify process gases, fluids, and the ambient fab environment
- Liquid systems that dispense, control, analyze, or transport process fluids
- Gas delivery systems that safely store and deliver toxic gases
- Advanced liquid, gaseous, and solid precursors for chemical vapor deposition (CVD) and atomic layer deposition (ALD) processes
- Advanced materials for wafer surface preparation and integration (SPI) and other processes requiring high purity chemistries
- Specialty chemicals including organometallic and organosilane materials used in semiconductor device manufacturing, monomers and polymers used in the manufacture of medical devices, and isotopically labeled materials used in clinical diagnostics
- Polishing pads for chemical mechanical planarization (CMP) applications
- Slurries for CMP applications and for polishing other substrates including ultra-hard surfaces like silicon carbide (SiC) and gallium nitride (GaN)
- Advanced packaging products with a single, diverse technology foundation, covering substrate handling, materials purity, Cu plating, CMP, ESD, and facilities solutions
- Specialty coatings that provide high-purity surfaces for wear-resistance, corrosion protection, and smoothness
- Premium graphite and silicon carbide for high-performance applications
- Shippers and trays for protecting and transporting microelectronic components
- Microenvironments that protect semiconductor wafers and reticles from contamination and breakage
- Cleaning solutions for e-chucks, and probe cards

LEADING THROUGH INNOVATION

For 60 years, we have been committed to solving our customers' most demanding process challenges through a broad solutions portfolio, collaborative and innovative product development, and a focus on science and applications knowledge.

Our core competencies include:

- Materials science and analytics
- Advanced materials
- Microcontamination control
- Manufacturing excellence

These competencies, supported through a global network of manufacturing and technology centers, enable us to collaboratively provide our customers with the highest level of material and process purity, improving their process performance and yields.

INDUSTRY PARTNERSHIPS

We partner with industry leaders in the semiconductor and other high-tech industries to ensure that our customers can take full advantage of the latest advances in microcontamination control, critical materials handling, and advanced process materials.

In addition to strategic partnerships and membership in key industry groups, such as the International Technology Roadmap for Semiconductors (ITRS) and SEMI, Entegris is actively engaged in industry technology consortia.

Quick Facts

- Headquartered in Billerica, MA, with a global infrastructure of manufacturing, customer service, and/or research facilities in the United States, Canada, China, France, Germany, Israel, Japan, Malaysia, Singapore, South Korea, and Taiwan
- ~$3.2B 2025 net sales
- Holds ~4,400 active patents
- ~7,700 employees worldwide
- Traded on NASDAQ under ENTG

Key Milestones and Acquisitions

1966 **Founded as Fluoroware, Inc.**

2000 **Begins trading under the ENTG symbol on NASDAQ**

2005 **Merges with Mykrolis Corporation**, a leading provider of liquid filtration and gas purification technologies

2014 **Acquires ATMI, Inc.**, a leading provider of advanced materials

2017 **Partners with Spectrum Materials**
Manufacture specialty gases in China

2018 **Acquires PSS**
Particle sizing instrumentation for liquid applications

Acquires SAES Pure Gas
High-capacity gas purification systems

Acquires Flex Concepts
Quick-turn custom configurations for bioprocessing

2019 **Acquires Digital Specialty Chemicals**
Organometallics and other fine chemicals

Acquires MPD Chemicals
Organosilanes and other advanced chemicals

Acquires Hangzhou Anow Microfiltration
Filtration manufacturing in Asia

2020 **Acquires Sinmat**
CMP slurries for SiC, GaN, C

Acquires GMTI and CRP
Advanced process monitoring for CMP chemistries

2021 **Acquires BASF's Precision Microchemicals business**
CMP slurries for SiC and high-purity cleaners for HDD

2022 **Acquires CMC Materials**
Industry-leading CMP slurries and pads

2026 **Celebrates 60 years in business**

Executive Management

David Reeder, President and Chief Executive Officer
Nathaniel Arnold, SVP and Chief Information and Digital Officer
Michael Besnard, SVP and Chief Commercial Officer
Olivier Blachier, President, Materials Solutions and SVP, Chief Innovation Officer
Brad Clay, SVP, Global Supply Chain
Joe Colella, SVP, General Counsel, Chief Compliance Officer, and Secretary
Clint Haris, SVP and President, Advanced Purity Solutions
Sukhi Nagesh, SVP and Chief Financial Officer
Susan Rice, SVP, Global Human Resources and Corporate Communications
